EDUCATION

University of Engineering and Technology *September 2020 - May 2024*
BS Computer Science

EXPERIENCE

Project Intern — Iris *June 2023 - July 2023*

- View Certificate

  During my tenure as a Project Intern at Iris, I spearheaded the development of a comprehensive School Management System. Leveraging a stack comprising HTML, CSS, JavaScript, PHP, and XAMPP, I orchestrated the system's architecture and functionalities. Additionally, my role involved refining communication proficiencies through regular engagement with the project manager, offering valuable insights into effective team dynamics and collaboration strategies, enriching my professional acumen for future endeavors.

PROJECTS

- **Personal Portfolio** (React Native, React.js, MongoDB, Node.js)
  My personal portfolio showcases a collection of projects, skills, and passion for web and app development.

- **Final Year Project** (React Js)
  "Elevate early childhood education with our cutting-edge AR-enhanced learning platform tailored for children aged 2 to 5. Our immersive system integrates interactive 3D models and captivating activities, fostering not only academic growth but also social and emotional development. By providing a rich tapestry of visual stimuli and engaging experiences, we empower young learners to explore, discover, and thrive, laying a solid foundation for their future success and lifelong love of learning."

- **Food Affairs** (HTML, CSS, JavaScript, PHP)
  Experience unparalleled event management with our advanced website platform, simplifying every stage from planning to execution. Seamlessly create and personalize events, while offering attendees seamless registration experiences. Elevate event coordination with our intuitive interface, ensuring smooth interactions and lasting engagement for all participants.

- **ShareTribe Project**
  Utilize Sharetribe's powerful platform to craft your own rental website effortlessly. With intuitive tools and customizable features, streamline the rental process from listing to booking. Launch your rental business confidently, providing users with a seamless and reliable online experience.
